

The Word Bible Software

This is FOR FREE, really free!

The Word Bible software is an intuitive and powerful computer program which puts hundreds of Bibles, commentaries, dictionaries, books and maps at your fingertips. Even though the software is provided at no charge, that in no way suggests that the quality and caliber of The Word is anything less than what one would expect from a top-of-the-line program. The Word Bible Software is one of the **very best Bible study software programs available, commercial or otherwise.**

The Word Bible Software installs a desktop icon without asking and leaves a folder behind upon removal. We recommend this program to all users.
